Bellagio Spas.

Established in 2003 by a team of experienced manufacturers, Bellagio has 20 years of experience in manufacturing quality spas and swim spas. Our goal is to provide the ultimate wellness experience for our customers worldwide.

Dedicated.

Our 300,000 sq foot state-of-the-art facility streamlines our production process, stabilizing lead times, and guaranteeing quality. From our Bellagio lines to private labels, no order is too big or too small. Let Bellagio's team of skilled craftsmen and motivated engineers turn your concepts into reality.

Efficient.

Modern design meets efficient production at Bellagio. We understand the ever-changing needs of our consumers. Our seamless integration with the global supply chain keeps us on the cutting edge of product development while controlling costs and lead times.

Development.

Sharing ideas and constantly improving ourselves is our mission at Bellagio. Our dedication to product development and excellence has helped make Bellagio a world leader in wellness solutions. We strive to improve both the quality of our products and the lives of our customers.

WHY BELLAGIO

Thermo-Retain System

Unmatched Energy Savings For Lasting Comfort

Welded Aluminum Frames

Bellagio's Welded Aluminum Frames, with its high strength-to-weight ratio and advanced one-piece design, offers a breakthrough in frame technology, offering an unmatched combination of strength, durability, and aesthetics.

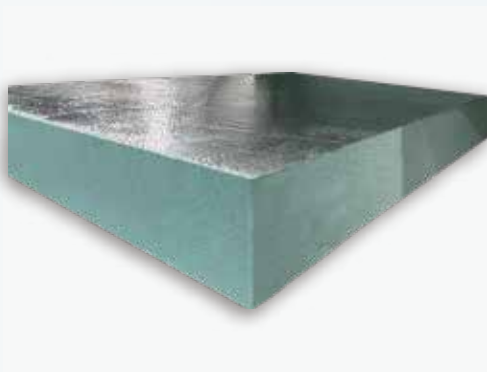

Aluminum Everlast Cabinetry

Maximize insulation and save costs with our Aluminum Everlast Cabinetry, offering heat resistance up to 230°F and deformation-free performance compared to traditional PVC materials.

Enviro-Seal Base

With a revolutionary Enviro-Seal Structure minimizes heat loss from the foundation, ensuring tubs consume minimal energy while maintaining the perfect temperature.

Perimeter Insulation System

Designed for polar regions, our Perimeter Insulation System provides additional side insulation for optimum heat retention.

Innovative Upgrades

Advanced Solutions For Maximum Performance

Industry 1st Reversible Cabinet

Our Industry 1st reversible cabinet meets thermal insulation needs, adapts to various scenarios, and reduces color inventory requirements.

AquaGlow Jets

Bellagio's evolved AquaGlow Jets System merges ergonomic jet design with integrated all-around lighting, transitioning from decorative to a fully customizable, premium experience.

Heat Exchanger

Bellagio introduces a dual-function heat exchanger for year-round comfort, seamlessly transitioning between heating and cooling, enhancing efficiency, reducing energy costs, and ensuring uninterrupted relaxation.

Heater/Chiller Ready

Double your efficiency and savings with our built-in Heater/Chiller and Pre-Installation external connection. Plug-n-play installation optimizes warmth and relaxation.

Hydromassage

A trendy experience, tailored to target specific areas of your body for maximum comfort and relaxation

Customizable massage

With adjustable water and air flow jetting, our spa brings the perfect relaxation experience exactly where you need it. A simple turn of the jets or air valves allows you to customize each seat to your preference.

Pulse jetting

Our bearingless pulse jets provide gentle relief to all muscle groups.

Deep foot massage

Alleviate joint and muscle pain with our customizable foot jets, designed to soothe and relax.

Air massage

Indulge in the relaxing effect that reaches every part of your body.

Hydro Kinetic™ Diverter Jetting System

HydroKinetic energy is generated by the movement of water. When air is infused, the water volume doubles, providing a more comfortable massage. Jet placement targets key muscle groups for maximum relaxation, while diverter controls let you fine-tune water pressure in each zone.

Great Partners Are Our Strength

Bellagio Spas collaborates with industry-leading partners whose extensive expertise and advanced components are integral to crafting products that deliver the ultimate hydro-massage experience, ensuring a fulfilling and lasting ownership experience.

Operating successfully in a competitive, ever-evolving environment requires dedication and a strong commitment to continuous improvement. At Bellagio, we recognize the importance of choosing the right partners to achieve our ambitious goals and surpass customer expectations.

Bellagio Spas are crafted to deliver exceptional hydro-massage performance throughout a long product lifecycle. Precise engineering, meticulous manufacturing, and rigorous quality control practices are at the heart of Bellagio's philosophy, ensuring every spa is built to meet the highest standards.
