EMBRACE THE COLD

Unlock your potential. Break through mental barriers. Feel invigorated.

A Chill Tub will change your outlook on life and allow you to break through your own boundaries and make you feel you can take on the world.

Cold water therapeutic treatment is a recovery technique used by athletes and individuals looking to improve their physical activity.

Some benefits of using a Chill Tub include:

Reduce Muscle Soreness

Improve Circulation

Improve Recovery Time

Improve Immune System

Decrease Inflammation

Fights Anxiety & Depression

CHILL TUBS°
ESSENTIAL
POD

Materials
Ultra-Durable Reinforced PVC

Weight
16.5kg

Water Capacity
498 litres

Draining
Hose Pipe connection

Cover Included
Thermo lid keeps water at a steady temperature

Inflate
High Pressure Structure max 10 Psi (0.68 Bar) - Solid wall and insulated design

Included
- 1 x Chill Tubs Essential Pod
- 1 x Protective Thermo Lid
- 1 x Essential Pod User Manual
- 1 x Carry Bag and Strap
- 1 x Floor Pump
- 1 x Repair Kit

Dimensions

1 1000mm

2 900mm

CHILL TUBS°
LITE

Power Supply
13 Amp / 220v-240v
50/60hz

Materials
Roto Mould

Weight
85kg

Water Capacity
400 litres

Temperature
Settings as low as 3° degrees or as high as 40° degrees

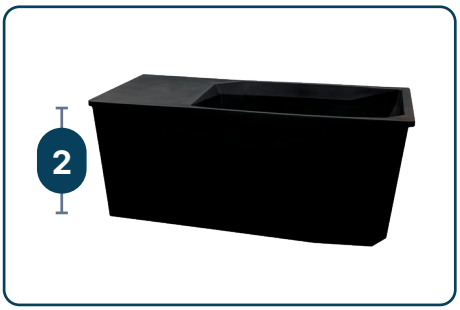

Draining
Hose Pipe connection

Antifreeze Function
Prevents the formation of ice or frost

Ozone + Filtration
Built in ozone and filter system for clear water

Cover Included
Insulated for reduced running costs

Lighting
Base LED Light

HEALTH BENEFITS

An ice tub is a therapeutic treatment that can provide a range of health benefits.

Some of the benefits of an ice tub include:

Norepinephrine Boost

Cold exposure can significantly increase the production of norepinephrine in the body, with a consistent increase of 200-300% that does not diminish over time. The colder the temperature, the more pronounced the body's response to the increase in norepinephrine production. In fact, a 20-30 second immersion in near freezing water can elicit the same level of increase as a 6 hour walk in 16°C weather.

Protein Power

Cold exposure can stimulate the production of a protein called PGC-1 alpha, which can increase metabolism at a cellular level. PGC-1 alpha is being targeted by pharmaceutical companies in the development of treatments for obesity, diabetes, and cardiomyopathy. In muscle tissue, the increased energy released from the production of PGC-1alpha can improve aerobic capacity and endurance, as well as increase resistance to fatigue.

Increased Killer T Cells

Cold water immersion, particularly in the winter, can challenge the immune system and the way hormones communicate with the body. Studies have shown that regular winter swimmers experience adaptive reactions, including an increase in the production of the antioxidant glutathione. Just a few cold water sessions over a 6 week period can increase the number of lymphocytes, a type of immune cell. Some research has even found that males exposed to 4°C for 30 minutes had an increased number of "killer T cells," which are cells that help to eliminate viruses. These findings suggest that cold water immersion may have immune-boosting effects on the body.

Immune Boost

There is widespread anecdotal evidence that suggests that cold water immersion can boost the immune system. Many people report feeling healthier and less prone to illness after regularly taking ice tubs. While the immune system is complex and difficult to study, it is believed that the cold can help to adapt and harden the body to disease and infection. Despite the lack of robust scientific studies on this topic, many people believe in the immune-boosting benefits of cold water immersion.

QUICK SET UP

Before installing the Chill Tub*, please ensure that there are no obstacles on the outside of the vents on the side of the chiller/fan.

If there are obstacles blocking the vents, it will cause the compressor to self-protect and the Chill Tub water temperature cannot drop. Once your Chill Tub is in a position you are happy with please leave it laid flat for 24 hours for the refrigerant to settle in the compressor (Chill Tubs are the same as a fridge or freezers and the gas needs to settle before use).

The Chill Tub can then be filled with water but it should not be turned on for 24 hours. We do recommend that you read the full manual though in particular the safety information before you use.

*the quick set up guide is only relevant to the Original, Lite, Pro and Obsidian

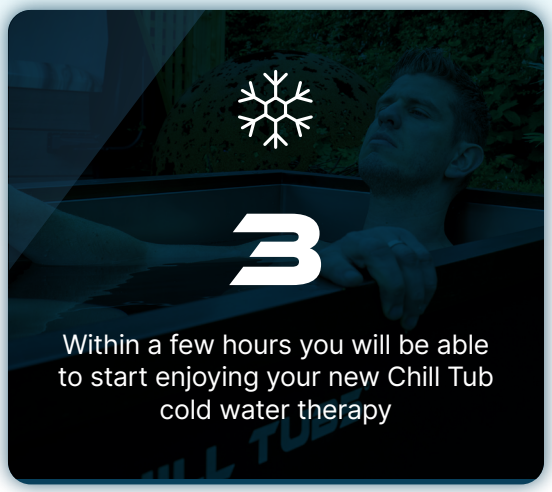

1

Simply place a garden hose into it. The tub will be completely filled in approximately 15-30 minutes, depending on water pressure. For the Chill Tubs Pro fill via filter housing

2

Plug in your tub to a 13amp plug socket and set the desired temperature on the control panel

3

Within a few hours you will be able to start enjoying your new Chill Tub cold water therapy

4

We strongly suggest you empty your water every 8-12 weeks and repeat these first three steps

WARRANTY AND REPAIRS

Chill Tubs Original, Lite, Pro and Obsidian

Our Chill Tubs warranty provides coverage for defects in workmanship and defects or malfunctions that arise during normal use conditions for a period of 2 years from the date of delivery.

This warranty applies to commercial and residential use of the Chill Tub and only to the original purchaser or original owner if the product was purchased as a gift. **The use of any hot tub/multi-functional tablets is prohibited and will invalidate your warranty, as this may cause problems with the stainless steel structure. We recommend you only use the Chill Tabs Sanitiser tablets**. The warranty does not cover damage resulting from the addition of chemicals to the water, (excluding our recommended Chill Tabs Sanitiser) neglected filter care and replacement, power outages, low water flow, restricted air flow, or any other form of neglect, misuse, or abuse. There may be other exclusions to this warranty, as described in the Limited Warranty. It is important to carefully read and understand the terms of the Limited Warranty in order to fully understand the coverage provided.

Chill Tubs Essential

1 year warranty on the pod and the lid for defects or malfunctions that arise during normal use conditions from the date of delivery. Chill Tubs Ltd takes no responsibility for any punctures that arise.

Warranty Limitations

- The warranty period starts upon delivery of the Chill Tub
- The warranty does not cover damage caused by misuse, lack of maintenance, or lime scale deposits. Chemical abuse or poor water chemistry. Chill Tubs Ltd reserves the right to replace the defective parts with factory or re-manufactured parts.
- Chill Tubs Ltd is not responsible for any damage caused by alterations or modifications by the consumer.
- The warranty of the Chill Tub does not cover defects, damage or failure caused by the common carrier, installer, user or other persons, pets or rodents, or resulting from, without limitation, any of the following: careless handling (lifting unit by plumbing, abrading finish, etc) including its own negligence; modification of any type for any reason) including modification to meet local codes); Improper installation (including installation not in accordance with instructions and specifications provided with the unit); connections supplied by the installer of the equipment; improper voltage supply or unauthorized electrical modification; misuse; incorrect operation, or lack of proper routine maintenance; operation of the unit without specified minimum amount of water or at inappropriate water temperature; use of abrasive or improper cleaners; or acts of God, such as lightening, floods, earthquakes etc.

- In addition, Chill Tubs Ltd will not be responsible for incidental or consequential damages or losses arising from any cause (e.g. water damage to carpet, ceiling, tiles, marbles, loss of use etc.) including it's own negligence; damages to, respecting or resulting from: chemicals/misuse are used in the unit or hard water conditions; optional equipment not manufactured by the company but supplied with the dealer, installer or Company; the units prior usage as an operational of display; or defects that should have been discovered before installation.
- This warranty does not include labour, transportation, crane, or any other costs incurred in the removal and or re-installation of the original unit and/ or installation of a replacement unit; any costs relating to obtaining access for repair; or loss of use damage, including loss of sales, profit, or business under any circumstances. Chill Tub units are excluded of any warranty coverage if any addition, deletion, or modification of any kind whatsoever has been made to the unit (or to any component).
- The warranty does not cover defects of damage due to normal wear and tear, improper installation, alterations without the manufacturer written consent, accident, misuse, abuse, commercial or industrial use, the use of an accessory not approved by the manufacturer, failure to follow the user manual, or repairs made or attempted by anyone other than an authorized representative of the manufacturer.
- Chill Tubs Ltd will not provide compensation for delays in resolving warranty claims, or loss of use whilst the claim is in process.
- Chill Tubs Ltd takes no responsibility for any punctures that arise with the Chill Tubs Essential range.

Registering the product warranty

All products require registering using the product registration form within 7 days of installation. Failing to register may invalidate the warranty. Please fill in all information requested. To register your Chill Tub, please go to **www.chilltubs.com/support**

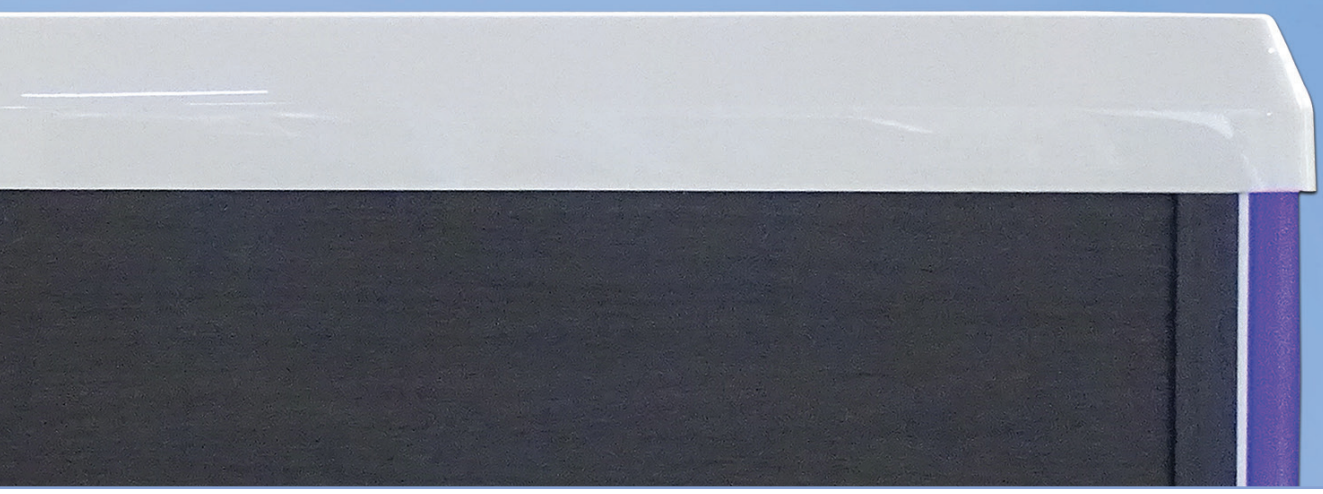

Extent of Warranty

This warranty extends only to the original consumer purchaser of the Chill Tub when invoiced and delivered. The warranty terminates upon any transfer of ownership prior to the expiration of the warranty period. Any modifications to the Chill Tub will void the warranty.

How to make a claim

If you are a Chill Tubs retailer making a claim on behalf of your customer, please log a claim using the warranty portal on the CRM.

If you are a Chill Tubs customer, please contact your Chill Tubs retailer who will make the claim on your behalf.
